First Aid in Road Injuries

Every year the lives of approximately 1.35 million people in the world are cut short as a result of a road traffic crash. Between 20 and 50 million more people suffer non-fatal injuries, with many incurring a disability as a result of their injury. GDGH First Aid in Road Injuries training program imparts skills to save lives and prevent the impact of injuries. Our first aid in road injuries training delivers the latest information in the best possible manner.
