

Overview

Certificate in Hearing Language and Speech (CLST) is 11 months' certificate course that is a theory & practical oriented training course. Students who complete the course will be able to recognize disorders and help speech-language pathologists accurately treat their patients. It contributes to the production of manpower needed to meet the needs of people with communication disorders. Impaired speech and communication, along with suitable therapy, are the main topics of this course. A course in speech-language pathology and hearing is somewhat linked to speech therapy and rehabilitation. In addition to treating speech problems, it also addresses hearing impairments.

Objectives

After completing this course, participants will be able to:

- Learn about the concepts of speech, language, communication, hearing and disability.
- To diagnose and assess the disorders related to speech, language, swallowing and hearing.
- Provide essential services to people of all ages and backgrounds in developing the vital human skill - communication.
- Educate members of the public on prevention and early identification of persons with communication disabilities.
- Educate members of the public on prevention and early identification of persons with communication disabilities.
